WebCorde

Java Developer

Description

We're seeking a talented Java Developer to join our innovative team and contribute to cutting-edge software solutions. If you're passionate about Java programming, have a strong portfolio of projects, and enjoy collaborative environments, we want to hear from you!

Responsibilities

- Design, develop, and implement Java-based applications.
- Write clean and efficient code, following best practices.
- Collaborate with cross-functional teams for project success.
- Troubleshoot and optimize application performance.
- Stay updated on the latest Java trends and technologies.

Qualifications

- Bachelor's degree in Computer Science or related field.
- Proven experience as a Java Developer.
- Proficiency in Java, object-oriented design, and data structures.
- Familiarity with Spring, Hibernate, and web services.
- Strong problem-solving and teamwork skills.

Job Benefits

- Competitive salary and incentives.
- Comprehensive health insurance.
- Generous vacation and paid time off.
- Opportunities for professional growth.
- Access to cutting-edge tools and technologies.
